November News

Give Thanks

It all begins in Pennsylvania Farm Country where local farmers keep the tradition of humanely raising animals and organically growing fruits and vegetables. It is a place where time stands still, the Old Grist Mill still makes flour and farm fresh eggs are collected from happy free roaming chickens.

We fell in love with this place where our Earth Animal treats are made. Earth Animal Wholesome Wraps™ are baked with humanely raised Turkey and Wild Salmon, which are rolled out on trays, brushed with Olive Oil and wrapped around Organic Cranberries & Apples, Blueberries, Kale and Sweet Potatoes. We are proud to tell you that we do our baking in a human USDA Inspected facility, not a pet food plant.

Earth Animal Wholesome Wraps™ are loaded with goodness inside and out. They are baked with your animals health and happiness in mind. Offer them this Thanksgiving, as an alternative to sharing rich food (table scraps) which may cause intestinal and tummy issues.

Dr. Bob and Susan's
"Wellness and Longevity Program
Natural Care for Dogs and Cats"
Book is now available.

Our book is a perfect holiday gift for
the animal lover in your life.

We came across Bella a 3 year old Welsh Corgi during a recent book signing and lecture. Bella's mom shared with us that she is in remission from Lymphoma, a form of cancer, after following our cancer protocol in chapter 9. Bella also lapped up lots of Potato Peeling Broth on page 298, (our immune supporting soup).
