

October News from Dr. Bob and Susan

Give Thanks

It all begins in Pennsylvania Farm Country where local farms keep the tradition of humanly raising animals and organically growing fruits and vegetables. It is a place where time stands still, the Old Grist Mill still makes flour and farm fresh eggs are collected from happy free roaming chickens.

We fell in love with this place and here is where we make our Earth Animal treats. Earth Animal wraps are baked with humanly raised Turkey and Wild Salmon which is rolled out on trays brushed with Brown Rice Flour and Olive Oil and wrapped with Organic Cranberries and Apples, Blueberries, Kale and Sweet Potatoes. We are proud to tell you that we do our baking in a human USDA inspected facility not a pet food plant.

Earth Animal wraps are load with goodness inside and out. They are baked with your animals health and happiness in mind. Offer them this thanksgiving as an alternative to sharing rich food (table scraps) which may cause intestinal and tummy issues.

Dr. Bob and Susan's "Wellness and Longevity Program - Natural Care for Dogs and Cats" Book is now available.

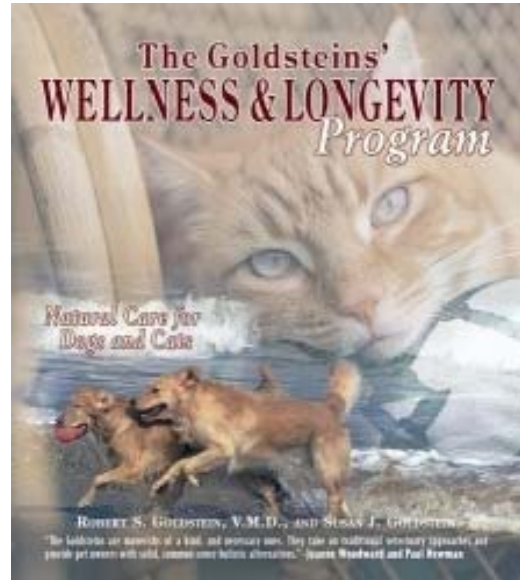

It's a perfect holiday gift for the animal lover in your life.
