February News

February Is Dental Health Month!!!

This month we are dedicating this letter to keeping your dog and cats mouth and gums healthy. A healthy mouth and gums, free from plaque and inflammation, not only supports the immune system but the day to day quality of life. Optimizing daily care helps to prevent periodontal disease which may cause the release of harmful bacteria into the blood stream, sometimes resulting in organ damage.

We suggest starting with a wholesome diet based upon your animals individual nutritional needs along with Earth Animals Daily Health Nuggets.

Other Healthy Dental Oral Hygiene Tips

Chopped Parsley added to the food daily offers a natural way to freshen breath. Parsley is rich in antioxidants and phytonutrients. Parsley contains Chlorophyll which is a blood cleanser and natural deodorizer.

Avoid commercial toothpaste and brushes which may contain chemicals or cause damage to gums. Consider using a soft wash cloth along with Earth Animal Clean Mouth Gums and Breath Herbal Drops.

Routine cleanings should be done as frequently as individually needed based upon veterinary advice. If possible consider avoiding general anesthesia. To learn more about Non-Anesthetic Teeth Cleaning please visit [Pet Dental Services website](#) or check with your local pet store if there is someone in the area that has been certified in Non-Anesthetic Teeth Cleaning.

All dental cleanings should be followed up with ten days of Earth Animal Immune Support liquid herbal remedy to keep the immune system strong while combating the release of possible bacteria into the blood stream.

Earth Animal's Charitable Efforts

This month a percentage of our sales from Earth Animal Clean Mouth Gum and Breath Herbal Drops and Brushed on Benefits Fresh and Dental will go to the ["Little Black Dog Rescue"](#).

Did you know that black dogs are the first to be abandoned and the last to be rescued or adopted? Little Black Dog Rescue focuses on the rescue, care and placement of black dogs who are in danger of euthanasia, as well as other dogs who are in immediate need.

The Great Escape!!!

Did you hear about Freddie the cow who escaped the New York City slaughter house on January 22, 2016. He was rescued and named by Mike Stura the founder of the [Skyland Animal Sanctuary and Rescue](#) in Wantage NJ.

This is a farm which cares for human food industry rescued animals. We've had the pleasure of getting to know Mike Stura, the founder and "Angel" who transports these animals to safe havens. Earth Animal has made a commitment to help Freddy and the other residents of Skyland Animal Sanctuary and Rescue. Perhaps you would like to [join us by sponsoring an animal](#).
