

A Message From Dr. Bob & Susan

January News

Happy New Year To You And All Those You Hold Dear!

The New Year is the perfect time to bring in new ways to enhance your animals Immune System and to keep on keeping on with the Earth Animal Daily Program.

Off To A Good Start With Charitable Efforts

We want to thank you for your support in our efforts for the [Farm Sanctuary](#). You should know, we raised a thousand dollars from the sales of Earth Animal Organic Turkey Wraps during the month of November. It felt so good to write that check!

Our Story Begins

We started our journey healing animals holistically back in 1979, when our dog Leigh, a Golden Retriever with crippling arthritis, responded favorably to a diet change and a vitamin mineral antioxidant program, along with therapeutic juicing. He was our first Integrative Veterinary patient experience, which led to our conversion from conventional to holistic veterinary practice.

We've learned a lot these past 37 years and have been blessed with teachers along the way. This month, we thought we'd share the importance and benefits of "Visualizing Your Animals Wellness" every day, especially if your dog or cat is under the weather.

The art and therapeutic value of Visualization was introduced to us by [Dr. O. Carl Simonton and his wife Stephanie Matthews-Simonton](#) along with [Dr. Bernie Siegel](#). Bernie is an MD Surgeon who observed that cancer patients who visualized their cancer in a positive way got better results, than those who did not.

Painting a canvas in your mind's eye of your animal vibrant and well, is a very powerful thing you can do to promote Wellness and Healing. It should include an appropriate wholesome diet and supplements based upon individual needs, along with an effective side effect free flea and tick prevention program.

Earth Animal Immune Support Herbal Remedy

Consider adding Earth Animals Immune Support, our organic liquid herbal remedy formulated by Dr. Bob. Immune Support helps to build immune resistance, especially during periods of stress or exposure to germs and viruses, commonly found in parks, boarding facilities and other public areas.

Immune Support Ingredients:

- Echinacea Pupurea (Leaf and Root)
- Goldenseal
- Astragalus Root
- Pau D'Arco
- Turmeric
- Ashwaganda
- Flower Essences - *to help with emotional balance and healing*

Earth Animals Immune Support may be used two weeks on and two weeks off as a preventative or follow directions when a condition is present. It should be administered in combination with a high quality whole food vitamin such as Earth Animals Daily Health Nuggets, Dr. Bob's special blend of vitamins, minerals, antioxidants and phytonutrients (fruits and veggies). The Daily Health Nuggets (DHN) far exceed your animals daily requirements

Other Immune System Health Tips

- Relaxing music that soothes the body, mind and spirit. (Dogs and cats love harp music)
- Touch and massage
- Fresh air, rays of sun and exercise
- Also read Chapter 7 "The Immune System: The Key to Health and Wellness" starting on page 151 in our Wellness and Longevity Program - Natural Care for Dogs and Cats book

How to Visualize

- Find your favorite place for peace and serenity (outside or inside)
- Do some deep breathing to clear your mind
- Visualize a picture (as though you were an artist painting on a canvas) of your animal as vibrant and well.
- Picture him or her in detail in a specific location (for instance your favorite spot to relax) or your favorite place in your home
- Reflect as needed until picture perfect

Good Job! - Your visualization snapshot is now ready to use.

Take care from Dr. Bob and Susan

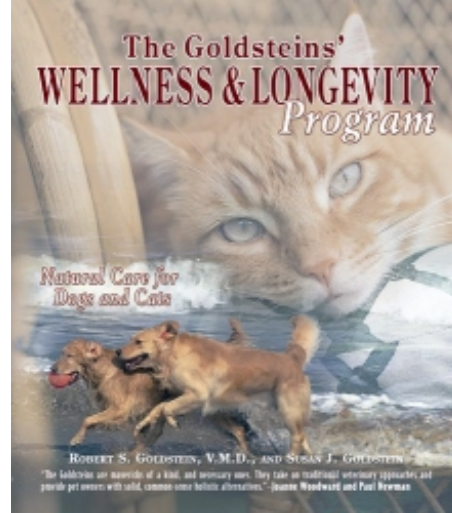

Share with us your Visualization experiences. We would love to hear about them and any ideas you have to contribute. [Whats on your mind -- What are your concerns?](#)

Next month we will have tips on how to keep your dog or cats mouth, teeth and gums healthy.
