

A Message From Dr. Bob & Susan

May News

May Is Cancer Awareness Month

Ever since the early 80's, we have been treating Cancer in dogs and cats using nutrition as a healing modality at Healing Center for Animals, our holistic veterinary telephone service.

Affiliated with Earth Animal, Healing Centers cancer protocols consist of a nutritional evaluation of the patients blood work, resulting in a regimen consisting of cancer fighting foods, vitamins, minerals, antioxidants and herbs.

The two of us, and Jamie, our assistant at Healing Center for Animals, wish we could say we have found the cure, but what we can offer, in most cases, is a positive program which increases longevity and promotes quality of life, common objectives of pet parents. (No Suffering/No Side Effects)

Cancer continues to be the most feared or dreaded disease and it is epidemic in animals, as well as breed specific. Golden Retrievers, Boxers, Labradors, Rottweilers and Bernese Mountain Dogs are some of the most vulnerable for developing cancer.

The common cause of cancer is a weakened or over whelmed immune system. Cats and dogs who are cancer positive have lost control of healthy cell division and can no longer properly manage or destroy unwanted organism or cells.

Early detection and prevention continues to be the best attack against cancer. We recommend frequent visits to your animals veterinarian (1 to 2 times a year), at which time, a complete physical and blood work should be done, followed up by a nutritional evaluation of the blood test results. By the way, Dr. Bob is the inventor of the NBT (Nutritional Blood Test Analysis). Nutritional testing will indicate imbalances throughout all systems, by providing vitamin, mineral and antioxidant insights to healing.

Common Symptoms of Cancer Include:

- Sudden weakness or lethargy
- Loss of appetite
- Bone pain or limping (without insult or injury)
- Abnormal swelling of lymph nodes
- Lumps, bumps, growths or tumors (should be checked out not all are malignant)

What Can Trigger Cancer?

At the top of the list of cancer causing triggers is Genetics. Unfortunately this disease is commonly found in pure bred dogs and cats.

"We Believe There is a Moral and Ethical Obligation of "ALL" Breeders "To Stop Producing Cancer In Their Line". Share with us a breeder who breeds consciously, so we can add to our Conscious Breeder List.

Other Triggers Include:

- Vitamin, mineral, antioxidant insufficiency found in many commercially prepared foods
- Low quality meats (protein) containing cancer causing hormones and other suspect ingredients found in many commercial pet foods
- Chronic emotional stress (human or animal)
- Environmental toxins, pesticides, insecticides (which includes traditional Flea, Tick and Mosquito treatments and Spot-ons)
- Long term and over use of vaccines
- Long term and excessive prescribed medicines and drugs

Good News!!!! Cancer can be Prevented - TAKE CONTROL

The elimination or avoidance of these triggers, along with a wholesome organic diet, as well as a good source of supplements and plenty of Alkaline water (not stored in plastic containers) is the first place to start on the road to having a cancer free animal.

In addition certain herbs such as in Earth Animal Immune Support Tincture, work powerfully on the immune system and should be administered if you think your animal is susceptible or at the first signs of emotional stress or physical compromise.

Earth Animal Immune Support

Product Facts - For Use In Dogs & Cats Only:
An organic herbal blend that helps jump-start and balance the immune system. Helps provide immune support, strengthen cells and organs to guard against common conditions due to stress or weakness in the body.

Active Ingredients:
A Proprietary Blend of Organic & Wildcrafted Herbal Extracts of Echinacea Pupurea Leaf and Root, Goldenseal, Astragalus Root, Pau D'Arco, Turmeric, Ashwaganda.

We also suggest Earth Animals Daily Health Nuggets for dogs and cats. This is a whole food vitamin that will help support the overall health and immune system of your animal.

Earth Animal Daily Health Nuggets

- Air dried, not cooked, to retain active nutrients
- Delicious daily supplement treat
- Provides essential nutrition often missing from highly cooked dog and cat foods
- Helps support overall wellness and longevity
- Made in the USA

WARNING!!!!

Please Avoid Vaccinating Your Dog or Cat if They Are Cancer Positive. Also Stop the Use of All Chemicals for Flea, Tick and Mosquito Prevention.

We Can Help!

For those of you dealing with cancer in a loved one, know that help is on the way. To learn more about us at Healing Center of Animals go to our website at www.healingcenterforanimals.com or call us at 203-227-4943 and speak with Jamie.

April's Charitable Efforts & Very Important News

Our charitable efforts for April were granted to the [Farm Sanctuary in Watkins Glen NY](#) to help support the new 200 residents recently rescued and who were badly abused. Also to [AmeriCares Disaster Relief Fund](#).

The two of us are planning a visit to Watkins Glen and have offered our holistic veterinary services, especially to help heal the animals emotions, which are badly damaged in some. We will keep you posted as to the news from this amazing healing center.

Warm Weather Tips

Upper Respiratory Virus and the Flu are on the Rise!

Be Proactive and Avoid:

- Contact with unfamiliar animals, such as in dog parks and other public places
