

“The Goldsteins’ Wellness & Longevity Program, Natural Care for Dogs and Cats”

Robert S. Goldstein, V.M.D., & Susan J. Goldstein

Local Bridgeport Connecticut couple launch their first book nationally, “The Goldsteins’ Wellness & Longevity Program, Natural Care for Dogs and Cats” which recently received the Maxwell Award by the D.W.A.A. Award (Dog Writers Association) for best new health care book for dogs and cats.

Holistic Veterinarian Robert Goldstein and his partner Susan Goldstein, founders of the very popular Earth Animal Healing Center for Animals in Westport, have devoted three decades as pioneers in a new field of Veterinary Medicine, “Integrative Medicine”, which combines natural therapies with conventional veterinary medicine. Together they have educated thousands of clients and veterinarians worldwide on the usage of safe, effective and affordable alternatives combining natural therapies, nutrition and homeopathy. Based upon the Goldsteins twenty five years of clinical experience, they have successfully helped animals with chronic diseases such as allergies, arthritis, cancer, diabetes and organ dysfunctions.

Now for the first time, backed by compelling research, findings and a wealth of personal experience, the Goldstein’s book dispenses practical solutions for just about every common condition an animal faces in his or her life as well as an updated approach to treating cancer. This includes a diagnostic test and nutritional treatment available through veterinarians here in Connecticut. Cancer is considered to be epidemic in certain popular local breeds such as Labradors, Golden Retrievers and Rottweiler all of which responded incredibly well to the NBT test and Treatments

The book is brimming over with endorsements from credible folks such as Gary Null, Marc Morrone, Paul Newman and Joanne Woodward.

Said Joanne Woodward and Paul Newman “*The Goldstein’s are mavericks of a kind and necessary ones. They take on traditional veterinary approaches and provide pet owners with solid, common-sense holistic alternatives.*”

Susan and Dr. Bob are available for interviews and are frequent lecturers in their subject. Their book can be found at local bookstores, the Earth Animal flagship store in Westport, earthanimal.com, or on amazon.com.
